Your dog is going to have a wonderful, home from home experience with us. He will mix with other dogs and humans in close contact all day and most of the evening, apart from when he sleeps, when he will be in his own personal suite to rest.

He will be looked after as if he were my own dog, with all the love, care and attention I lavish on my own. He will have a lot of exercise and be out romping in the fields or the woods, places unfortunately, where I cannot control certain elements, such as wild animals, insects, snakes etc. Whilst I take every care with your pet, I cannot be held responsible for accidents that may happen on walks, or if he/she slips their leash and runs away. [I ask that your dog be fitted with a collar that is snug enough to fit 2 fingers inside but not too tight, and the collar must have tags with name and number on it, plus a rabies tag, in accordance with Hall County regulations]

I like to remind clients that dogs are not robots. Moods just like with humans can change in an instant and disagreements can occur. Fights, though extremely rare, are a possible fact of life when working with more than one dog. We accept no liability for any injuries arising from fights and would ask that if you feel your dog is not adequately social to be mixing confidently and calmly with other dogs then you enquire about our one-on-one exercise service and individualized boarding arrangements and fees.

Should there be need at any time for veterinary assistance, I like for clients to use my own vet, if theirs is more than a few miles away, as mine is open every day and will often stay open a little later to accommodate my needs, or give after hours advice on the telephone.

I would ask that you, before you leave, set up with either my vet,

Dr Betteker
Chateau Animal Hospital
770 868 1349

Or your own vet, if close enough, to have a facility that if any need for treatment should occur, the vet bills you directly or is happy to have a service on account, as I cannot afford to pay client vet fees. If the dog should fall sick, and I have not been able to contact you to get your agreement to take the dog to the vets, I am to be empowered by you to make that decision for the dog's benefit in your absence. All Vets bills are the responsibility of the client without exception.

I have your agreement that stomach upsets will be dealt with using a 24-hour fast before the veterinarian's advice is sought, unless I see symptoms that concern me.

I have your permission to bath your dog once a week or as I see fit and clip his/her nails if they will tolerate it.

I have your permission to feed the dog fresh meat, vegetables and brown rice or holistic kibble at times.

I have your permission to take your dog for a swim or paddle in the creek

I have your permission to dispense ear washes and eye washes if necessary and other treatments as deemed necessary.

I have your permission to socialize your dog with other dogs and

humans in order to provide company, stimulation and training for him/her.

Lastly, I require a deposit of 50% seven days in advance of your dog's arrival, or at time of booking, whichever is appropriate, the balance to be paid on the day that you pick up your pet.

Because of the small number of pets that I can accommodate, cancellations are very costly to my business as I cannot, at the last minute, get other bookings to replace that cancellation. Because of this even if your vacation ends sooner than you thought and you need to collect your dog earlier than booked, unfortunately the invoiced amount payable must remain as booked.

If I am picking up and delivering your pet, there will be a minimum charge of \$10, to be added to the final bill.

Please sign below to indicate that you have read these terms and are happy to accept them
